We are now enrolling participants in Kannapolis.

Participation involves two appointments at the Duke Clinical and Translational Science Institute (CTSI) office in Kannapolis on the N.C. Research Campus and follow-up questionnaires. As a participant, you will:

- Complete two study visits at the Duke CTSI office in Kannapolis
- Provide a small blood sample
- Complete a brief pain assessment
- Answer some questions about your physical, mental and emotional well-being

Compensation will be provided for completed study activities.

For more information, please call 919-684-5241 or email transitions-study@duke.edu.
