

COMMUNITY ENGAGEMENT

Facilitating equitable, authentic, and robust community-engaged research at Duke to improve health.

How do we support the Duke Research Community?

- **Building capacity**
- **Facilitating connections**
- **Fostering authentic communication**

SIGNATURE PROGRAMS

- **Consultation and matchmaking services**

Helping assess & enhance research teams' readiness to successfully partner in community-engaged research.

- **Population Health Improvement Collaboration Awards**

Supporting promising collaborations in development of research questions and establishing pilot data for community-partnered fundable proposals.
