CTSA Team Science Core Leader Request for Applications

CTSI is seeking a Co-Faculty Lead for the Team Science Core of the Clinical and Translational Science Award (CTSA).

The Team Science Core is responsible for supporting the culture of, facilitating, and providing education and training in team science to researchers involved in clinical and translational research at Duke.

The Team Science Core Co-Faculty Lead will work collaboratively with Core Staff Program Director to envision, develop and champion evidence-based programming to support Team Science research and researchers at Duke. The Faculty member will have proven success in conducting collaborative, interdisciplinary, and/or convergent research.

Subject-matter expertise in the following areas is highly preferred:

- Science of Team Science (SciTS),
- Integration and Implementation Science (I2S),
- Implementation Science,
- Sociology,
- Public Policy,
- Business Management,
- Data Science

Responsibilities include:

- Building collaborative capacity for teams at Duke by facilitating the development and implementation of Team Science programming, including:
  - Team Science training modules and workshops,
  - Pre-award workshops, such as facilitated research prioritization workshops,
  - Post-award support mechanisms, such as embedding project management support into team science projects
  - Other programming, as needed.
- Supporting evaluation of program offerings,
- Facilitating connections, and sharing resources with other CTSA Cores and national hubs,
- Providing leadership for the Team Science Core,
- Representing and communicating Team Science Core activities and successes to CTSA leadership
- Representing and championing team science with Duke internal stakeholders by interfacing with Duke leadership across the institution
- Disseminating Team Science Core findings and activities to relevant external stakeholders

Key attributes: The successful candidate will build strong and positive working relationships with staff, unit directors, researchers, faculty and administrators, as well as the external community. The candidate will contribute to a culture of epistemic humility, and will work to dismantle white supremacy culture.

Support: Position will provide 10%-20% effort support.

Apply: Interested candidates should send a current CV to Kristine Glauber (Kristine.Glauber@duke.edu)
